

Been a victim or witness of crime?

Make your voice heard

Victim Support is seeking victims and witnesses of crime to take part in focus groups and interviews that will be used to raise awareness of the local issues victims and witnesses face.

If you have experienced crime in the last two years and are no longer involved in criminal justice proceedings, or a court case relating to that crime, we want to hear from you. We are particularly keen to hear from people who have been the victim or witness to:

- antisocial behaviour
- sexual violence
- domestic abuse
- hate crime

Contact us to find out how your experience can help other victims and witnesses:
